ALSO FEATURING VON SCHWEIKERT & WESTMINSTERLAB

We Are Back!

Our inaugural show received a plethora of great press and positive feedback from our vendors and you... so we must be doing something right! We know that SWAF is not the largest audiophile show in North America ...yet, but we are definitely the fastest growing show with plenty of space and momentum to expand for years to come. For 2025 we've grown to over 50 rooms on four floors, including 20+ large rooms filled with tons of high-end gear and expect to double our traffic all because of being in Dallas and the amazing Anatole Hotel.

After you have visited our listening rooms and vendor packed Atrium, we suggest that you visit the Anatole's galleries, restaurants, grounds and even venture into the surrounding neighborhood and you will see why we are here. Although we started off as a modest-sized show, SWAF is here for the long haul and we are building a Texas-sized show for an amazing music and fun-filled weekend

We thank you for being part of SWAF so be sure to mark your calendar for an even bigger and better show on March 26-28, 2026.

Musically Yours,
Gary Gill and Lou Hinkley

TubeTrap™

The Original Corner-Loaded Bass Trap with Built-in Treble Diffuser

Complete Your Audio Signal Chain with the World's Finest Room Treatment

FEATURES		BENEFITS
Isothermal upgrade	→	Increased bass absorption below 250 Hz
Adjustable treble diffusion above 500 Hz	→	Maintain room ambience
30 day, 100% satisfaction guarantee	→	...but you'll love them!
Sturdy handcrafted construction	→	Durable, stackable & hangable
Fiber sealed	→	No irritating particles

1 800 ASC TUBE (272-8823)

THE BEST analog system accessory!

Since 2017, our ultrasonic record groove restoration system using record ionization has successfully restored record grooves

We RESTORE not just surface shine records.

SHOW SPECIAL
\$994.00

Retail: \$1,380 (Added \$118 of accessories at no charge)

Our Stepped Process Removes:

First: Films air or vacuum dried onto the record by other cleaning processes;

Second: Films deposited on the record by the outgassing of the record's plasticizer while the record is in its sleeve for weeks or decades, home to many surface scratches;

Finally: The release agent that allows the record to pop out of the press, and, while cooling, inadvertently fusing dirt and dust that may land on the record, cause of those nasty pops in new records

Your needle now discovers the once hidden timbre, soundstage, imagery, tone and the breath and emotion of the artist.

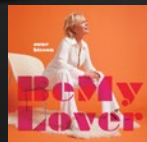

Depending on the provenance of the record:
1.3 to 8+ dB gain increase over floor,
an 8 to 18+ % increase in frequency response.
Results Guaranteed!

In the Marketplace:

Bring us a record to restore, Booth 10

Proud Supporter:

At the event, meet **ANNE BISSON:** Charismatic Pianist Singer-Songwriter from Montreal, Quebec

Pure Full Range Electrostats

Only one electrostatically charged membrane achieves isophasic emission of all frequencies in a true line source topology, no need for any cross over and no sectionalization of the membrane for high/low frequencies.

This achieves (near) perfect time and phase alignment to which our ears are most sensitive.

ONE

Simplicity

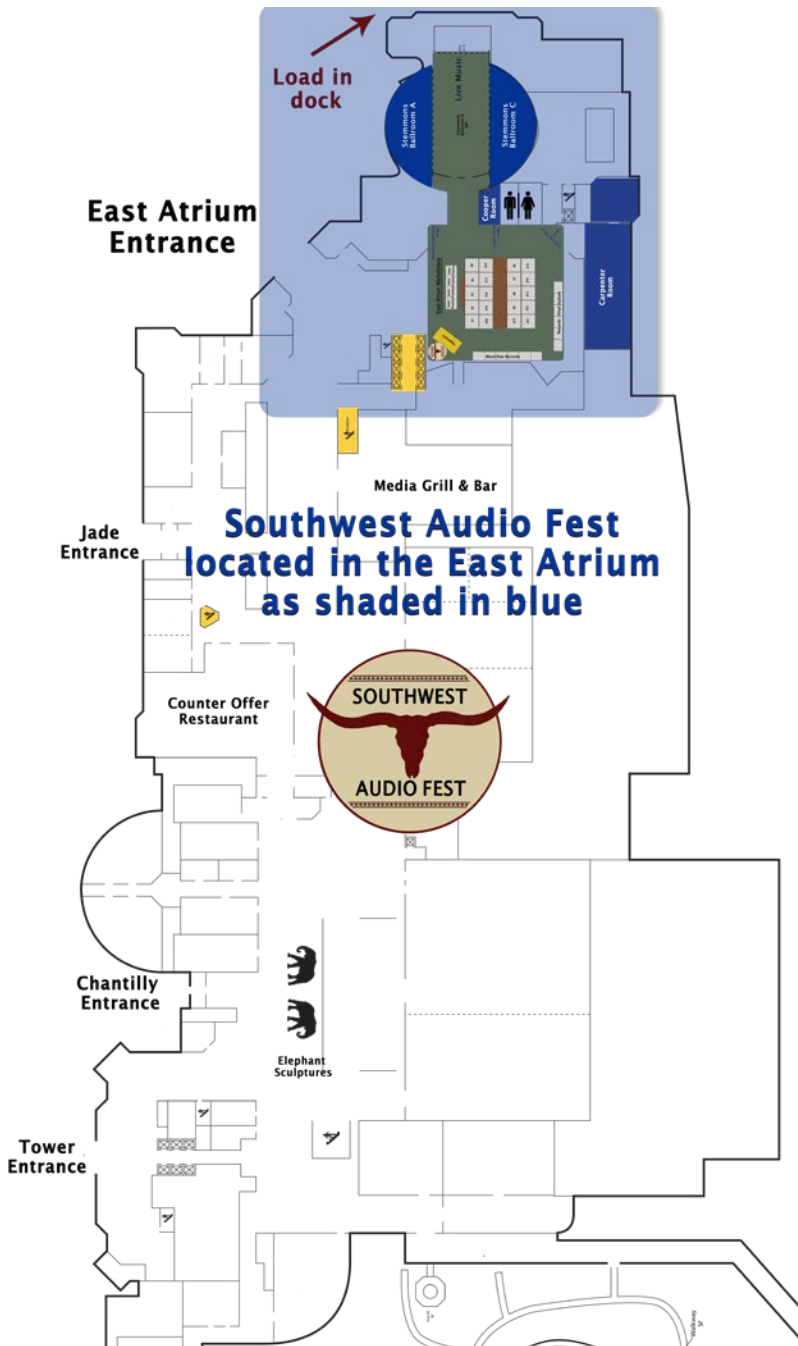

Starting from 20" in width and
57" in height

PacificAudioFest.com

We are taking a one year hiatus in 2025 but we will return in 2026 and annually after that. Join us for the fourth annual Pacific Audio Fest in Seattle, WA.

Same great venue, September 11-13, 2026.

This is the show to visit on the west coast!

Over 50 rooms of great audio plus a vibrant Marketplace that includes everything from record cleaners to power solutions and personal HIFI.

Lastly, don't forget that PAF has our own penthouse nightclub, Maxi's Lounge, where during the day we have informative seminars and at night great local music! All free with your ticket.

"Completely up to the standards I've enjoyed at LA, Chicago & Rocky Mt. Great venue choice, great assistance all day at the registration center with whom I (and fellow wanderers) consulted."

"Aside from above comments, audio vendor/mfgr representation was superb and immensely enjoyed. Great surprise vinyl arena!

Did I say "Great Job ?? ... Great Job !!"

Unsolicited Fest Review

Be sure to plan 2026 by being part of PAF!

While you are here consider combining your visit by seeing some of the other Pacific NW sights with your family!

March 26 - 28, 2026
Hilton/Anatole
Dallas, Texas

SouthwestAudioFest.com

Year Three Coming Up!

Thank you for returning and helping to make SWAF a success! We want you to know that we have already locked-in with the Anatole for SWAF 2026! Our continued growth and feedback shows that Dallas and the Southwest Region will support and promote a quality audiophile/high-end consumer electronics show for years to come. We hope that you not only enjoyed SWAF and the Anatole but had a chance to get out to experience the surrounding neighborhoods and you will understand why we will remain here for a long time.

SWAF thanks all of our volunteers, especially all the local and regional audio clubs, groups and societies! Thank you also to our generous sponsors who have made the live music and much more possible including Qobuz, Snake River Audio and KNON radio in Dallas.

For 2026, SWAF will return in true Texas-style with more rooms and vendors at the same great venue, so be sure to mark your calendars! Take note that for 2026 we will be doing something no one in the industry has done before! Our show days and hours will be: March 26-28, Thursday 2:00-8:00PM and Friday/Saturday 10AM-6PM. Why? Because we have listened to you and know it will make an even better show for all!

As always we will go the extra mile to make this show a lot of fun, while providing live music, seminars, after hours events and more. We will see you in 2026!

Thanks and happy listening,
Lou Hinkley and Gary Gill
